

Dining with **DISTANCE**

Due to Coronavirus, chefs and kitchens pivoted to the lifesaving strategy of offering carry out or curbside pickup. Another strategy to restore profitability will be dining outdoors, addressing customer concerns about safety and indoor dining density.

*Dining out is as much about the experience as it is the food.
Customers long for gathering again - eating, laughing & socializing...*

Since 1889, Fermob's folding tables and chairs have been found on the sidewalks of Paris extending the seating area of the small cafes, bringing joie de vivre to the city.

Fermob offers:

- Folding metal tables for easy nightly storage
- Folding or stacking chairs for nightly storage
- Tables and chairs in a wide variety of colors
- Fermob's variety of colors allows each retail establishment their own identity while still allowing a cohesive aesthetic in your district.
